- English (Fluent)
- Telugu (Fluent)
- Hindi (Intermediate)

PROFILE

Highly skilled Java Fullstack Developer with expertise in Spring Boot, Angular, and React, specializing in building scalable, secure, and high-performance applications. Proficient in backend development, microservices architecture, RESTful APIs, and cloud integrations, with a strong foundation in database management (SQL Server).

Experienced in frontend development using Angular and React, creating dynamic, responsive, and user-friendly interfaces. Passionate about optimizing system performance, ensuring security, and streamlining development processes. Adept in CI/CD, AWS deployments, and agile development methodologies, continuously enhancing technical skills and delivering robust solutions.

WORK EXPERIENCE

Orchasp Limited   AUGUST 2024 - PRESENT
Associate Software Engineer

- Develop and maintain scalable, high-performance web applications using Java, Spring Boot, and Angular.
- Collaborate with cross-functional teams to design, implement, and optimize backend and frontend solutions.Contribute to API development by designing and integrating RESTful services for seamless data exchange.
- Participate in Agile development processes, including sprint planning, code reviews, and continuous integration.
